Introduction

It's our pleasure to introduce WEONE General Contracting Co. Our activities ranging from steel fabrication, Mechanical installations, Machining services, Instrumentation, Electrical installation & commissioning, Civil works, Epoxy Flooring and Waterproofing. We have a diversified customer pool, which consists of both local and international clients.

We have the ability to quickly respond to our valuable client(s) requirements, hence challenging ourselves to provide innovative, professional and in-time solutions to them. Admiration of our commitment, dedication and quality of work by our clients is proof of our achievement in related industrial sectors. WEONE General Contracting Co. processes immense experience in handling the requirements and meeting the expectations of key industrial sectors, such as steel, Oil & Gas, Petrochemical, Power, Utility & Mining Industries.

SPECIALIZING IN

MECHANICAL

- Lifting Solutions
- Structural Steel Fabrication
- Erection and installation
- Painting and other surface treatment

ELECTRICAL

- Installation and commissioning of electrical Works
- Installation and re-alignment of crane Busbar

CIVIL

- Industrial foundations and Buildings
- Equipment and Plant foundations
- Site Preparation
- Gypsum Board Work

FLOORING

- Epoxy Flooring
- Concrete repairs with Carbon fiber
- Sports Flooring

Our valued Clients

Lifting Solutions

WeOne proudly claims to be your “One stop shop” for supply of different types of lifting solutions involving different types of cranes, including Overhead cranes, Jib Cranes, Gantry and Semi Gantry cranes, chain hoists etc. At WeOne we keep the customer at the core of our business. Hence although we are recognized as one of the reputed service providers of crane manufacturing and installation we do extend our services from refurbishment and modification of old cranes to design and solution services to our valued customers. Our local and overseas business partners extend their full support to us for identifying the customer’s exact requirements and coming up with a technically sound and economically viable solutions. We Study and Analyze, Design and Develop, Construct and install, Commission and Synchronize.

We provide following lifting solution services:

1. Installation & Commissioning of new Crane
2. Crane Girder Manufacturing
3. Rail and Busbar Installation
4. Crane Refurbishment

Installation & Commissioning of new Crane

Crane Girder Manufacturing

Rail and Busbar Installation

Crane Refurbishment

Structural reinforcements

Standalone Structure

Hybrid structures

Design and installation of missing members

STRUCTURAL STEEL FABRICATION

With a well-equipped fabrication and machining facility, WeOne along with its experienced manpower is very appropriately capable to carry out the following activities:

- Office buildings, storage sheds and work shop hangers
- Runway beams and overhead crane girders
- Heavy supporting structures and pipe racks

PLATE WORK

- Hoppers
- Storage silos (non-pressurized)
- Process equipment (non-pressurized)

ERECTION / INSTALLATION

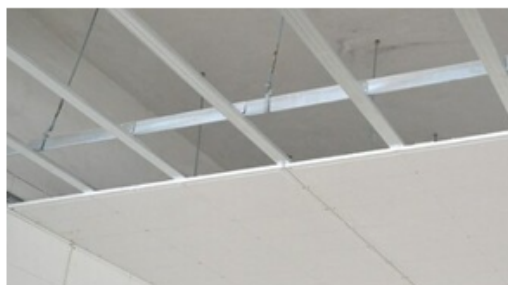

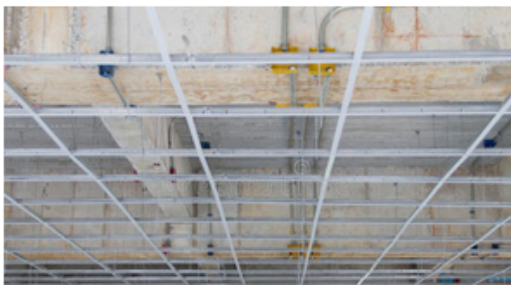

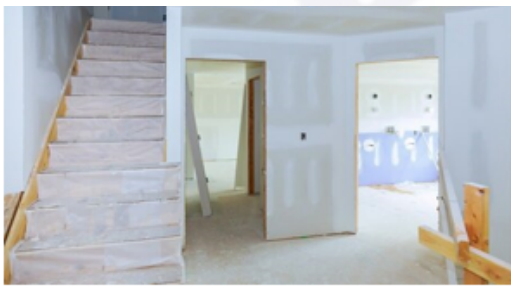

- Erection of pre-fabricated and pre-engineered buildings (PEB)
- Dismantling of erected structures
- Installation and dismantling of rotating and static plant equipment. Such as compressors, ID fans, motors, ducts, overhead cranes.

Fabrication & Erection of Steel Structure

Gypsum Board Work

We have expertise in Gypsum Board Work both new construction and renovation works with all related jobs like false ceiling, ceramic, Gypsum board partition, Glass partition, Electrical & Mechanical Works.

Major Projects Completed

Sr#	Customer Name	Project Description	Location
1	Al Tuwairqi	Up gradation of new DCS at NASCO including structural steelfabrication and erection, MS piping works and commissioning	Second Industrial City Dammam
2	Hungry Bunny	Construction of new meat processing plant including all civil construction, structural steel fabrication and installation, piping works, Equipment installation, finishing works	Second Industrial City Dammam
3	SINOPEC	Construction of new under pass	Dammam
4	DEMAG / HADEED	Refurbishment of old gantry crane 50T x 45 m including dismantling, repair works, installation and commissioning	Jubail (Hadeed)
5	ETIHAD / BILFAL	Fabrication, assembly and installation of 100+50 Ton Gantry crane	Yanbu (BILFLA)
6	ARASCO	Fabrication and erection of steel structure for storage facility at Dammam port	Dammam (Sea Port)
7	Zamil Steel (PED)	Fabrication of Saddle supports for transportation of pressure vessels (approx. 300 Tons)	Second Industrial City Dammam
8	AFICO	Fabrication and erection of complete conveyor support structure for new green wool line	Second Industrial City Dammam
9	DEMAG / MARAFIQ	Complete refurbishment of single girder gantry crane 80T including dismantling of old electromechanical components and installation of new ones. Repairing of damaged steel structure	Jubail (Sea Water cooling facility, MARAFIQ)
10	DEMAG/SCHLUMBERGER	Complete installation and commissioning of EOT cranes and Travel jib cranes (30 Units)	Second Industrial City Dammam
11	SRACO	Complete construction of medicine complex	Second Industrial City Dammam
12	GVA / HADEED	Refurbishment of slag pots	Jubail Industrial city

Major Projects Completed

Sr#	Customer Name	Project Description	Location
13	DEMAG CRANES / DRESSER	Design, supply fabrication and installation of standalone steel structure for one single girder 10 ton EOT crane and 3 pillar mounted jib cranes, including civil works	Jubail Support industrial City
14	KONECRANES/SIE MENS	Installation and commissioning of 150 ton over head crane	SIEMENS-Dammam
15	ACE CRANES	Installation and commissioning of multiple cranes and hoisting units for Riyadh Metro project	Riyadh Metro Project
16	Saudi Chemicals	Design, Supply, fabrication and installation of runway beams for 10 ton single girder ex-Proof crane	Riyadh
17	LG Saudi Arabia	Design, Supply fabrication and installation of standalone steel structure for two double girder EOT cranes	LG-Riyadh
18	KONE/ SCHLUMBERGER	Design, Supply fabrication and installation of standalone steel structure for light weight cranes	SLB-Spark, Dammam
19	KONE/NOV	Design, Supply fabrication and installation of standalone steel structure for two 10 ton single girder cranes	Second industrial City Dammam
20	National Steel	Supply, fabrication and installation of runway beam for billet bay crane for 2 x 25 ton double girder crane	Second industrial City Dammam
21	KONE/ARAMCO	Installation and commissioning of 170 ton portal crane for marine cable facility	Tanajib-Aramco Facility
22	AOSCO/ARAMCO	Fabrication and installation of 30" SS-316 gas line duct in HAWAYYAH (Turn over job)	Hawayyah
23	KONE/HADEED	Design, fabrication, painting and installation of standalone steel structure for various service areas in bar mill, furnace and LF area	Jubail-Hadeed 1
24	DEMAG/MODA	Design, Supply, fabrication, painting and installation of runway beams for 5t x 35 m span DG EOT crane	Khamees Musheet

Major Projects Completed

Sr#	Customer Name	Project Description	Location
25	DEMAG Cranes/SCHLUMBERGER	Installation of 75 plus EOT, portal, Jib and moving jib cranes in SLB new facility	SLB excellence center, Dammam
26	SVCP	Design, supply, fabrication and installation for the building rehabilitation of PEB	Second industrial city, Riyadh
27	BAHRAIN STEEL	Rehabilitation of super structure including dismantling of old burnt structure and design, fabrication and installation of new structure	HIDD-Bahrain
28	TABUK PHARMA	Construction of clean rooms along with all the utilities	Second Industrial City Dammam
29	PHELIX PHARMA	Construction of clean rooms along with all the utilities	SALALA-OMAN
30	KONE/ABB	Design, supply, fabrication and installation of standalone steel structures with a runway length of 30LM for multiple light duty KBK-type cranes	HITACHI-ABB facility in Second industrial City Dammam
31	DEMAG/SYNERGY	Design, supply, fabrication and installation for the strengthening of existing PEB in order to make it capable to hold 2 x 10 ton SG EOT Cranes	Second Industrial City, Dammam
32	KONE/MISK	Installation of multiple EOT cranes at MISK foundation project	MISK Foundation, Riyadh
33	OMS ITALY	Design, supply, fabrication and installation for the strengthening of existing hot rolled structure to make it	Second Industrial City, Dammam

Flooring Division

Our well experienced team of professionals under dedicated management is capable to undertake Epoxy Flooring , Epoxy Screed, Joint Sealant ,Line Marking , Concrete Repair /Injection, Waterproofing. Our expertise lies in epoxy flooring in Saudi Arabia. We are supported by our vast resources comprising of leading material suppliers, a dedicated application team and required equipment. Our ardent corporate philosophy lays emphasis on our role and responsibility in the economic development of the kingdom and is particularly characterized by its unflinching social commitment and incessant drive towards excellence in all spheres of its activities.
